

# tesa® 51904

## Product Information

Double-sided tape

tesa® 51904 consists of a hand tearable liner and backing for quick processing without additional tools.

### Features

- Its pink adhesive enables splice detection from both sides, offers high tack properties for immediate bond and good adhesion on unpolar substrates like PE or PP.

### Main Application

- Flying splice
- Flying core starting

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.
